

DIAMOND ANTENNA

C211 Cable Assembly

General Specifications

- 16' two-stage cable assembly consisting of:
 - a) C101 Antenna connector (UHF Female) attached to 6' RG316, low loss Teflon coaxial cable with mini-UHF connector.
 - b) C110 Extension cable with Male & Female mini-UHF connectors.
 - c) PL259 Adapter.
- Power Rating: 350 Watts @ 2:1 VSWR.
- Fits all Diamond Antenna vehicle mounts.
- Weather cap and decoration ring included.

Installation Instructions

- 1) Remove weather cap, decoration ring, and mounting nut for assembly to vehicle antenna mount.
- 2) Insert connector through mounting hole and firmly tighten mounting nut onto connector.
- 3) Attach decoration nut onto connector.
- 4) Route coaxial cable from antenna mount to radio. Attach PL-259 Adapter.
