

DIAMOND ANTENNA

K412S Antenna Mount

General Specifications

- Deluxe Medium Duty Trunk/Hatchback Mount.
- UHF Mounting Base, adjustable position.
- Black Finish.
- Power Rating: 500 watts FM, 700 watts PEP SSB.
- Coaxial Cable: 13.5' RG316 Teflon cable with SMA connector, PL259 adapter included.

Installation Instructions

- 1) Choose desired mounting location on vehicle to ensure maximum strength of mount and best performance of antenna.
- 2) When best location is determined, fasten mount to vehicle by tightening allen set screws. If antenna requires vehicle ground, fasten set screws through paint to ensure contact to metal.
- 3) Route coaxial cable from antenna mount to radio.
- 4) K412 instructions have been included for reference only.
